

ASEAN sells various optical cables

AI Overview

Key optical cable suppliers in ASEAN include OPTISEN (Thailand), Prysmian Group, JJ-LAPP, FiberTek, and Asian Cables, offering a wide range of fiber optic solutions for telecom and industrial applications. Leading Suppliers in ASEAN

OPTISEN (Thailand) OPTISEN is one of Thailand's largest optical fiber cable manufacturers, producing ADSS cables, drop cables, DUCT cables, and other optical fiber solutions suitable for both aerial and underground installations . Prysmian Group (Regional Presence) Prysmian provides a comprehensive range of optical cables and connectivity solutions across ASEAN. Their offerings include cables for FTTH networks, high-density splicing, and patching solutions, designed for aerial, underground, and central office installations. Prysmian emphasizes high optical network performance, low power consumption, and compliance with ISO 9001 and 14000 standards . JJ-LAPP (Singapore) JJ-LAPP specializes in industrial and renewable energy sectors, providing high-quality fiber optic cables and connectivity solutions. Their products are designed for reliability in demanding environments, including industrial automation and energy applications . FiberTek (Singapore) FiberTek has over 20 years of experience supplying fiber optic products, including uni-tube cables designed to prevent water penetration. They focus on high-performance solutions for data centers, telecom networks, and industrial applications . Asian Cables (India, Exporting to ASEAN) Asian Cables manufactures telecom and optical fiber cables with extensive production capacity, including 600,000 fiber km of optical fiber cables annually. They provide turnkey cabling solutions and comply with international standards such as IS, IEC, BS, and AS, serving clients across power, utilities, and telecommunication sectors .
