

Australian High Voltage Busbar Company

AI Overview

Aliweld Power, 50Hz Solutions, and Bovara are leading suppliers of high-voltage busbars in Australia, offering custom fabrication, insulated systems, and substation solutions. Key Suppliers Aliweld Power is a major supplier and fabricator of aluminium tubular busbars for substations and high-voltage infrastructure. They provide standard and custom busbar components, onsite welding services, and isolated phase bus ducting (IPB) for power stations. Their fabrication facility in Narangba is fully equipped for custom substation components, and all products comply with Australian standards, ensuring structural integrity and reliability under load conditions. 50Hz Solutions specializes in insulated busbar systems using Resin Impregnated Paper (RIP) technology, suitable for medium voltage up to 36kV and high voltage up to 245kV. Their systems can handle rated currents up to 12,000A, making them ideal for large-scale industrial and utility applications. They have a long history of installations in Australia, with some systems still operational from the 1960s and 1970s. Bovara manufactures Type Tested Custom Busbar Switchboards capable of handling up to 3200A. They offer solutions for commercial and industrial applications, including welded switchboards with various forms of segregation and ingress protection levels. Bovara's expertise includes design, assembly, and testing to meet Australian standards (AS 61439.1/2). Additional Suppliers Helios Power Solutions provides busbar supports and earth bars for applications up to 1,500 VDC and current ratings from 160–630A, with customizable high-conductivity materials. Design Switchboards and Distribution offers LV series busduct systems for power distribution, supporting design, testing, and commissioning for industrial and commercial projects. Legrand Australia supplies a wide range of electrical distribution products, including busbar solutions, with a focus on innovative and sustainable technologies. Considerations for Selection When choosing a high-voltage busbar sup...

Substations

Preformed Line Products (PLP) is a leading Australian manufacturer and supplier of integrated substation busbar systems and has been providing high quality busbar solutions to the market in

Busduct Electrical Power Distribution | EAE Australia

EAE Australia is a leading provider of innovative power distribution systems and busduct solutions for data centers, airports, subways, hospitals, and industrial facilities.

Intercable Automotive Solutions: E-mobility on a Global Scale

Our high-voltage busbars supporting high voltages are purpose-designed to match the latest requirements in EV technology. Utilizing advanced simulation and manufacturing technologies we

Simple, Lightweight and Flexible Power Distribution

IPD's range of Powerduct sandwich-style busway systems are the ideal solution for distributing electrical power in low voltage commercial and industrial applications including high-rise

About High Voltage Solution

About High Voltage Solution History High Voltage Solution, established in 2004 by Peter Rhodes, is a well-respected company within the high voltage (6.6 - 450kV) industry, operating throughout

infrapower

Infrapower excels in the installation, Construction, and Maintenance of high-voltage electrical infrastructure. We specialize in asset operation + maintenance, testing, repairs, and alterations for

Flexible Busbar and Braids

Flexible Busbar and Braids NHP's switchboard modular system makes switchboard manufacturing easier with flexible busbar and braid, allowing tighter bend radius and reduction of switchboard size.

Busduct Electrical Power Distribution | EAE Australia

EAE specializes in the design and production of Busduct (or busbar-busway systems), Rack Cabinets, Cable Trays, and Support Systems, ensuring a worry

Majesty Electrical | High Voltage Electrical Solutions

Majesty Electrical delivers expert high-voltage electrical infrastructure solutions across Australia, specialising in substations, transformers, and power systems

Home | Aus Power Equip | Transformers | Switchgear | Cables | Australia

Australian Power Equipment provide supply low, medium and high voltage equipment to clients across the Power Generation, Infrastructure and Resources industry. We provide new, near new and

Aliweld Power Pty Ltd

Aliweld Power Pty Ltd | 244 followers on LinkedIn. High voltage power component manufacturing - 100% Australian owner & operated. | Manufacturers and suppliers of specialized High voltage

High Voltage | Australian Electrification Industries

High Voltage Powering the backbone of modern industries and large-scale infrastructure, High Voltage (HV) systems are fundamental to efficient and reliable energy distribution. At Australian Electrification

Insulated Busbars | Circuit Protection & Switchboards | Australian ...

Insulated Busbars from Voltex, Australian supplier of electrical accessories, LED Lighting, Solar products including Insulated Busbars & Circuit Protection & Switchboards, IP56 rated switchgear and other

Busbar Manufacturers

Busbar Manufacturers Whether the busbars are for the cell to cell interconnects or the main busbars connecting the cells to the contactors, fuses and out to the

Top 100 Busbar Manufacturers in Australia (2026) | ensun

Helios Power Solutions specializes in power conversion solutions and offers a range of busbar products, including earth bars and busbar supports designed for applications with current ratings of 160 – 630A

Aluminium Tubular Busbar | Aliweld Power

Aliweld Power functions as Australia's major aluminium tubular busbar system supplier and fabricator for substations and power transmission infrastructure. Our production team builds standard and

Top 100 Busbar Manufacturers in Australia (2026) | ensun

Discover all relevant Busbar Manufacturers in Australia, including Bovara Pty Ltd and Helios Power Solutions Group

Global Power

Global Power Services Pty Ltd established on 1999, as a high voltage specialist company, and has grown to have presence all over in Australia with a well-known capability in a number of key high

Insulated Busbar

They are able to supply insulated busbar systems at all voltage levels up to 245kV and to rated currents up to 12,000A for medium voltage systems. MGC busbar systems installed in Australia during the

ACE Electrical Australia | HV and LV installations

Our high voltage cable and equipment installations, both above and below-ground, are Horizon and Western Power accredited. We have experience installing and maintaining high voltage networks to

Aliweld Power | High-Voltage Aluminium Welding & Substation

Aliweld Power specializes in aluminium busbar welding, substation fittings, and custom fabrication for high-voltage infrastructure across Australia.

HV Testing and Commissioning Services

We provide a full range of high voltage Substation Validation testing and commissioning services including FAT, SAT, SCADA Integration and HV

Insulated Busbar

Insulated Busbar Home » Products » Insulated Busbar Brochure Downloads MGC Busbar (Duresca) Suppliers 50Hz Solutions can supply Resin Impregnated Paper (RIP) " Duresca " insulated busbar

Top Busbar Trunking Manufacturers in Australia

SRS Power Pty Ltd specializes in electrical engineering solutions, including the design and assembly of busbar wiring for high voltage panels. Their expertise also extends to the manufacturing of various

POWER BUSBAR SOLUTION

POWER BUSBAR SOLUTION TE Connectivity's busbar solutions are typically made from aluminum or copper with electrical distribution applications in mind, with the ability to transmit high current power

Busbars – VTE Australia

3 Point Terminal Busbar: Designed for high current draw devices, primarily in the marine industry. Connect single large capacity cable to 2 devices, such as bow

Aliweld Power Pty Ltd

From high-voltage substation busbar installations to specialist aluminium fabrication and on-site welding — our mobile crews and workshop team are delivering quality, compliant solutions...

Custom Busbars | ProEV™ (An ECI Company)

Discover our high-voltage custom busbars for electric vehicles. Supports a wide range of applications including but not limited to battery packs, battery

About Us – Aliweld Power

Our company provides aluminium welding fabrication and high-voltage power services to Australian utilities and contractors with over 25 years of experience.

Bus Bars | Power Solutions

This durable insulator withstands a high voltage dielectric test. The powder coating may be applied to any shape at one of Methode's manufacturing facilities. Choose from multiple colors, thicknesses and
