

Burundi Gigabit Layer 3 Aggregation Switch

Overview

This is the next generation of modular Gigabit and Multigigabit Ethernet switches. The series provides enterprise-class Layer 2 and 3 switching, is designed for DNA Center and SD-Access management and automation, and includes an Enhanced Limited Lifetime Warranty. Home Products and Solutions SMB Products Products Smart Products Switch H3C S5120 Series Switches H3C S5120V3-LI Layer 3 Gigabit Access Switch Series H3C S5120V3-LI Ethernet switch product is independently developed by New H3C Technologies Co. It is a second-generation smart managed. The GWN7830 series are Layer 3 aggregation switches that allow enterprises to build scalable, secure, high-performance, and smart business networks that are fully manageable and support maximum capacity. 5G, and 10G speeds for flexible customization, ensuring optimal performance, compatibility, and scalability Flexible interface options like copper, fiber, and PoE ensure seamless integration and cost-effective deployment Supports stacking for easier management, improved redundancy. Multi-Chassis Link Aggregation (MC-LAG) pairs two switches for seamless redundancy and load balancing. Downstream devices link to both, spreading traffic and failing over instantly in the event of switch or fiber failure. Expand your access layer with UniFi Enterprise Campus switches. Nothing herein should be construed as constituting an additional warranty.

Article Content

Network Switch L3 Gigabit Managed Fiber Access

S5710-28SX is a 24-port 1G SFP port switch with 4*10G SFP+ uplinks and 4* 1G COMBO port, providing high-performance, secure connectivity for enterprise

Grandstream GWN7831 Layer 3 Aggregation Managed

GWN7831 is a Layer 3 aggregation switch for enterprises that has 4× Gigabit RJ45 ports, 24× Gigabit SFP ports, and 4× 10 Gigabit SFP+ ports. Using this powerful

Grandstream Releases New Layer 3 Aggregation Switches

The GWN7830 Series of Layer 3 Aggregation Network Switches is made up of 3 models that provide 2 or 4 Gigabit ethernet ports, 6 or 24 Gigabit

UniFi Switching

Layer 3 Switching UniFi Layer 3 switches provide hardware-accelerated inter-VLAN routing, often replacing external routers. Reduce network congestion, streamline

Grandstream GWN7830

Equipped with 2-Gigabit Ethernet ports, 6-Gigabit SFP ports, and four 10-Gigabit SFP+ ports, the GWN7830 Layer 3 Switch is a highly effective connectivity solution that meets the demands of

6 New Layer 3 Aggregation & Core Switches Powered

In Q1 2025, Asterfusion introduced an impressive portfolio of six new Layer 3 aggregation and core switches, each powered by their innovative

Grandstream GWN7832 Layer 3 Aggregation Managed

Featuring 24 Gigabit SFP ports, 4 × 10G SFP+ uplinks, and 2 × Gigabit RJ45 ports, it delivers 240Gbps switching capacity, ultra-low <2µs latency,

Stackable Aggregation Managed Switches

Provides 1G, 2.5G, and 10G speeds for flexible customization, ensuring optimal performance, compatibility, and scalability. Flexible interface options like copper,

Grandstream GWN7831 Layer 3 Aggregation Managed

The GWN7831 is a Layer 3 aggregation managed switch that allows medium-to-large enterprises to build scalable, secure, high performance, and smart

Layer 3 Aggregation Switch

Layer 3 Aggregation Switch MGS-6311-8UP4X NEW! L3 8-Port 2.5GBASE-T 802.3bt PoE + 4-Port 10GBASE-X SFP+ Managed Ethernet Switch

GWN7830 / GWN7831 / GWN7832 | Grandstream Networks

The GWN7830 series are Layer 3 aggregation switches that allow enterprises to build scalable, secure, high-performance, and smart business networks that are fully manageable and support maximum

Grandstream GWN7832 Layer 3 Aggregation Managed

Grandstream GWN7832 is a fiber optic network switch for medium to large businesses. GWN7832 is a Layer 3 aggregation switch with 12x 10 Gigabit SFP+

Grandstream Enterprise Layer 3 Managed Aggregation

Grandstream GWN7831 Enterprise Layer 3 Managed Aggregation Switch, 20 x SFP, 4 x SFP/GigE Combo, 4 x SFP+, Redundant PSU Support. The GWN7830

H3C S5120V3-LI Layer 3 Gigabit Access Switch Series

H3C S5120V3-LI switch series supports packet filtering at Layer 2 through Layer 4 and traffic classification. It provides a flexible queue-scheduling algorithm and allows settings to be configured

Grandstream GWN7831 Gigabit Aggregation Managed

The Grandstream GWN7830 Series comprises Layer 3 aggregation managed switches designed to empower enterprises in establishing scalable, secure, high

Ubiquiti UniFi Pro Aggregation 32 Port Managed

Ubiquiti UniFi Pro Aggregation 32 Port Managed Aggregation Switch 10GbE 32 Port
Ubiquiti USW-24 Layer 3 Managed Switch, 1.3" LCM Touchscreen, 28x 10GbE

Ubiquiti Store

1.8 Tbps high-density 100G/25G Layer 3 Etherlighting™ aggregation switch with MC-LAG support for high availability system design.

24-Port 10G Layer 3 Stackable Aggregation Managed

Featuring 24x10G multi-Gigabit ports + 4x10/25G SFP28 uplinks, this switch delivers flexible, high-performance connectivity. The 100M-10G auto-sensing

Multi-Gigabit Layer 3 Cloud Managed Switch

Highlights 2.5 Gbps ports smash the gigabit barrier and unlock the full potential of WiFi 6 APs. 802.3bt/at/af-compliant PoE++ ports with a total power supply of 370W. IP-MAC-Port Binding, ACL,

Layer 3 Aggregation Managed Switches

Layer 3 Aggregation Managed Switches The GWN7830 Series are Layer 3 aggregation managed switches that allow enterprises to build scalable, secure, high performance and smart business

Cisco Switch Selector

Cisco Meraki MS400 series brings powerful cloud-managed switching to the aggregation layer. This range of 1 and 10Gbps fiber aggregation switches adopts

Stackable Aggregation Managed Switches

Filter by Reset Showing 8 of 8 products DGS-3130-30S 30-Port Lite Layer 3 Stackable Managed Switch Compare DGS-3130-54TS 54-Port Lite Layer 3

What Is an Aggregation Switch and How to Choose?

These aggregation switches typically operate at Layer 2 or Layer 3 of the OSI model, depending on the network topology and configuration

Grandstream GWN7830 Gigabit Aggregation Managed

With comprehensive quality of service, adaptable security configurations, and support for maximum network capacity, the GWN7830 Series presents itself as

Cisco Switch Selector

This versatile modular switch is designed for high-density, end-of-row, and high-performance aggregation-layer deployments in both traditional and Cisco
