

Cable trays with small bends

Overview

A bend cable tray is a crucial component in electrical infrastructure systems, designed to route and support cables around corners, curves, and directional changes. These trays maintain structural integrity while enabling organized, safe, and efficient cable management in complex. Cable trays support insulated electrical cables in industrial and commercial settings. Each cable tray type performs a different function and comes in various materials such as aluminum. We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation. Elbow Cover, 3/4" Width, 1" Bend Radius, PVC, Office White, 1/bag Category: 90° Horizontal Cable Tray Bend Cable Runway Radius Bend; 12"W x 12.
