

Ethiopia Fireproof Cable Tray Price Inquiry

AI Overview

Fireproof cable trays in Ethiopia typically range from \$50 to \$200 per 2.4-meter section, depending on material, type, and supplier. Price Overview Fireproof cable trays, often made from stainless steel (304/316 grade) or specially coated galvanized steel, are more expensive than standard trays due to their enhanced heat resistance and durability. Standard hot-dip galvanized ladder trays cost less, while stainless steel or modular fireproof trays for industrial or chemical applications can reach higher price points, generally \$50-\$200 per 2.4-meter section depending on specifications and supplier. Suppliers and Availability NAHMA Precision Metal Products in Addis Ababa offers high-quality ladder and perforated cable trays with custom solutions for industrial applications. Micro Sheet Crafts provides modular and durable cable trays, including fire-resistant options, with competitive pricing and customized packing. Cable House supplies a comprehensive range of cable trays manufactured with graded raw materials and modern technology, ensuring durability and reliability. Local distributors in Addis Ababa maintain limited stocks of common trays, enabling 7-10 day delivery for urgent needs, while imported trays from China typically take 45-60 days including production and shipping via Djibouti port. Material and Specification Considerations Galvanized steel: Cost-effective for standard environments; not fully fireproof but suitable for moderate heat resistance. Stainless steel (304/316): Mandatory for fireproof applications, chemical plants, or coastal regions; offers superior heat and corrosion resistance. Load capacity: Industrial applications usually require 100-500 kg/m ratings; verify against project requirements. Modular systems: Increasingly preferred for flexibility and ease of installation in large-scale projects like the Grand Ethiopian Renaissance Dam or ind...
