

European Distribution Box Panel Manufacturer

AI Overview

Leading European manufacturers of distribution box panels include R. STAHL, DKC Europe, Pro-Automatic, EBASEE, and Extol International, offering modular, customizable, and certified solutions for industrial and hazardous environments. Key Manufacturers and Offerings R. STAHL specializes in control systems and distribution boards for hazardous areas, providing modular solutions that ensure reliable power distribution and safety in industrial environments. Their panels are designed for ATEX-compliant applications and can be customized for specific operational needs. DKC Europe is a major manufacturer of cable tray systems and electrical distribution solutions, serving both civil and industrial infrastructures. They offer a comprehensive range of products for electricity transport and distribution, with a strong international presence and experience in large-scale projects. Pro-Automatic (Denmark) produces distribution boards and main switchboards ranging from small series to large, complex systems up to 7800 amps. Their panels use type-approved modular systems like CUBIC or Tabula and Sasil rail systems, ensuring flexibility, reliability, and compliance with European standards. They provide full quality control, extensive testing, and installation support. EBASEE delivers customized industrial distribution box solutions for European markets, focusing on low-voltage electrical products. They offer OEM/ODM capabilities, design, testing, and quality assurance, enabling clients to enter the industrial electrical sector with reliable, scalable solutions. Extol International supplies distribution boards and control panels for indoor and outdoor applications, including explosion-proof designs for hazardous areas. Their products are available in stainless steel, GRP, and sheet steel, with IP42 to IP66 ratings and ATEX-certified Ex d / Ex'de protection suitable for Zone 1 and Zone 2 environments...
