

Fireproof and explosion-proof junction box

Overview

When you select explosion-proof junction boxes for hazardous zones, safety must come first. You need to match the box to the environment and check all relevant standards. They are commonly made of aluminum, stainless steel, or heavy-duty cast metals. Pepperl+Fuchs provides a specialized portfolio of Ex d (flameproof) and Ex tb (dust protection by enclosure) certified terminal boxes and junction boxes engineered for reliable use in explosion-hazardous areas. Unlike standard junction boxes, it is built with reinforced materials and sealed construction to withstand internal explosions without allowing flames or sparks to escape. Certified to ATEX and IECEx standards, these enclosures are essential for use in industries such as petrochemical, offshore, and manufacturing, where flammable gases or
