

Flame-retardant Uruguay PDU power distribution unit

Overview

Uruguay power strips and PDU power distribution units for surface mount, rack mount and general purpose applications. With its exceptional reliability and safety, it has garnered widespread appreciation from clients across various countries. PDUs deliver AC power from an uninterruptible power supply (UPS), a generator, or utility power source to servers, network/telecom equipment, and other devices. The PDU for your needs depends on the output. From basic PDUs, to monitored and switched rack power distribution units, to locking receptacles, Vertiv's solutions will offer the power distribution you need, as well as remote monitoring and management of your assets' power usage, so you can rest assured everything is running at peak. Nova Electric offers a full line of COTS and Military PDUs designed to manage power capacity and functionality for harsh environment applications. The same robust construction that characterizes our MIL-STD-810, MIL-S-901, and MIL-STD-167 AC Power Sources applies to our PDUs, which are also. Our Power Distribution Units (PDU's) are designed for scalability and rapid deployment for modern data centers. PwrQ PDUs are ventilated freestanding dual.
