

Kazakhstan DAC High-Speed Cable 800G

Overview

800G QSFP-DD DAC (Passive Direct Attach Copper) enables high-bandwidth 800G links and supports 800G Ethernet rate. Premium DAC solutions engineered for Kazakhstan's rapidly expanding data center, cloud computing, and telecommunications infrastructure — delivered by REALSEA Optical, a globally trusted high-speed interconnect manufacturer. The 800G OSFP to 4x 200G QSFP112 DAC is a cost-effective alternative solution to 800G fiber optic products, quite suitable for. 800G Ethernet DAC cables, as a direct-connection solution based on high-speed copper cabling, are widely used in short-distance connection scenarios within racks and between adjacent racks. Compatible with common 800G form factors (OSFP and QSFP-DD800), our cables are factory-tested and supplied with EEPROM programming and electrical test reports.
