

Ladder-type and trough-type cable trays are available in stock

AI Overview

Ladder-type cable trays are widely available in steel, galvanized, stainless steel, and aluminum, with options for perforated or solid designs, while trough-type trays can be sourced from major suppliers like ABB and Legrand.

Ladder-Type Cable Trays

Material Options and Features

- Steel:** Cost-effective, strong, suitable for heavy industrial wiring.
- Hot-dipped galvanized steel:** Corrosion-resistant, ideal for outdoor or moist environments.
- Stainless steel:** Durable, rust-free, high load capacity, suitable for chemical or outdoor exposure.
- Aluminum:** Lightweight, easy to handle, corrosion-resistant.
- Perforated trays:** Provide ventilation and heat dissipation, reducing cable overheating.

Design and Installation

- Open ladder design supports heavy cables and allows airflow.
- U-shaped protective edges prevent cable damage.
- Available in multiple heights, widths, and lengths, with horizontal and vertical fittings for flexible routing.
- Pre-fabricated sections simplify installation and reduce labor.

Suppliers and Stock Availability

- McMaster-Carr:** Offers same-day or next-day delivery for ladder cable trays.
- Alibaba:** Provides a wide range of ladder-type trays in bulk, including steel, galvanized, and stainless steel options.
- Shienden:** Lightweight, CNC-manufactured trays with superior heat dissipation and protective edges.
- Legrand:** Metallic ladder trays with compatible fittings and accessories for custom installations.
- ABB:** Offers cable ladder systems with medium to ultra-heavy duty options, manufactured in Canada and Saudi Arabia, ensuring rapid supply.

Trough-Type Cable Trays

While the web results focus on ladder-type trays, trough-type cable trays are typically available from the same suppliers, including ABB and Legrand. These trays are enclosed or semi-enclosed, providing additional protection for cables in environments where dust, moisture, or mechanical impact is a concern. They are a...
