

Malaysia SFP optical transceiver module

AI Overview

SFP optical transceiver modules in Malaysia are widely available from multiple suppliers, offering fiber and copper options for data rates from 155Mb/s up to 800Gb/s, suitable for telecom, data centers, and enterprise networks.

Overview of SFP Optical Transceivers

SFP (Small Form-factor Pluggable) modules are hot-pluggable optical transceivers used in high-bandwidth data communications. They feature an electrical interface connecting to the system and an optical interface connecting to fiber optic cables. SFP modules can be installed in front-panel or on-board sockets and are sometimes replaced by electrical interface modules for active or passive connections. They are essential for modern networks requiring scalable, energy-efficient, and high-speed connectivity.

Types and Specifications

Fiber SFP Modules: Support long-distance optical transmission, suitable for LAN, metro, and backbone networks.

Copper SFP Modules: Provide electrical connections over twisted-pair cables, often used for shorter distances.

Data Rates: Available from 155Mb/s to 800Gb/s, covering legacy systems to hyperscale data centers.

Compatibility: Many modules are compatible with OEM brands, offering cost-effective alternatives without compromising performance.

Suppliers in Malaysia

Suntrec Solution Sdn Bhd: Offers a wide range of SFP modules with reliable after-sales service.

Broadbase: Specializes in LAN connectivity solutions and fiber SFP transceivers for enterprises.

Hi-Optel Technology: Provides a full portfolio of optical transceivers, including long-reach and wide-temperature models, with direct manufacturer pricing and technical support.

element14 Malaysia: Stocks a large selection of transceivers from top global brands like Broadcom, Startech, and Amphenol.

Lazada Malaysia: Offers online shopping for SFP modules with competitive pricing, delivery across Malaysia, and hassle-free returns.

Considerations for Purchase

Network Requirements: Choose modules based on distance, data rate, and fiber type (single-mode or multi-mode).

Compatibility: En...
