

Middle East cable trays support customization

Overview

Custom Fabrication Available: From non-standard sizes to custom coatings Fire-Rated Options: For critical MEP installations Sustainable Practices: Supporting green building standards like LEED Documentation: Full Technical Documentation & Load Testing Reports Custom Fabrication Available: From non-standard sizes to custom coatings Fire-Rated Options: For critical MEP installations Sustainable Practices: Supporting green building standards like LEED Documentation: Full Technical Documentation & Load Testing Reports West Port Cable Tray is recognized as one of the leading manufacturers and cable tray suppliers in UAE, specializing in premium cable management systems within the Middle East. Our product range is meticulously designed to ensure durability, compliance with regulations, and operational efficiency. We are the leader for manufacturing of Cable Tray, Cable Ladder, Cable Management, Cable Trunking and all kinds of cable support solutions from 20+ years. Our cable tray systems are engineered for modern infrastructure, ensuring safe, organized, and efficient cable routing across commercial, industrial, and utility. Our GI-slotted channels provide structural support for cable trays, HVAC ducts, and piping. Made from high-quality galvanized steel, they enable fast and flexible mounting, especially in ceiling grids and MEP layouts. Premium Construction: Made from galvanized steel. Cable trays or perforated trays are used to support & protect electrical cables used for power distribution, control, and communication.
