

Mozambique Mesh Cable Tray Prices

AI Overview

Mesh cable trays in Mozambique typically range from \$2 to \$25 per meter, depending on material, size, and finish. Price Range and Cost Factors The average price per meter for cable trays, including wire mesh types, ranges from \$2 to \$25, influenced by material, type, size, and surface finish. Wire mesh trays are generally more affordable than ladder or solid-bottom trays, making them ideal for lightweight wiring projects. Key factors affecting price include:

- Material:** Galvanized steel is common and cost-effective; stainless steel is more expensive but corrosion-resistant; aluminum is lightweight and rust-proof; plastic trays are budget-friendly but not suitable for heavy loads.
- Surface Treatment:** Hot-dip galvanizing (HDG) and powder coating increase durability and cost, while pre-galvanized trays are cheaper but less durable outdoors.
- Size and Thickness:** Wider or thicker trays hold more cables but cost more per meter.
- Order Quantity:** Bulk orders can reduce costs by 20–40%.
- Shipping and Installation:** Local availability, transport, and labor costs in Mozambique can affect the final price.
