

Price list for 2-meter fiber optic patch cords

AI Overview

A 2-meter fiber optic patch cord typically costs between \$3.66 and \$10 USD, depending on connector type and fiber specifications.

Pricing Examples

- SC-SC Singlemode (OS2, 9/125 μ m):** Multi-pack 2-meter SC-SC patch cables are available online, generally priced around \$8-\$10 per cable, with lifetime warranty and individual testing included.
- LC-SC Duplex Singlemode (2mm, 2m):** Some international suppliers list prices starting from 3.66 EUR (~\$4 USD), suitable for LC to SC connections with UPC connectors.

Amazon and other retailers: Prices vary depending on brand, fiber type (singlemode vs multimode), and connector quality, typically ranging from \$4 to \$12 USD for a 2-meter patch cord.

Factors Affecting Price

- Connector Type:** SC, LC, ST, or hybrid connectors can influence cost. LC connectors are smaller and sometimes slightly more expensive.
- Fiber Mode:** Singlemode (OS2) is generally used for long-distance, high-speed networks and may cost more than multimode (OM2/OM3/OM4).
- Cable Quality and Jacket:** Riser-rated (OFNR) or plenum-rated cables for building installations may increase the price.
- Brand and Warranty:** Premium brands like Corning or FS.com offer tested cables with warranties, which can slightly raise the cost.

Summary

For a 2-meter fiber optic patch cord, expect to pay around \$4-\$10 USD depending on the connector type, fiber mode, and supplier. Bulk purchases or multi-packs may reduce the per-unit cost, and most reputable suppliers provide testing and warranty for reliability.
