

Price of fiber optic patch cords in Gaoyao

AI Overview

Fiber optic patch cords in Gaoyao typically range from around \$0.30 to \$15 per piece, depending on type, length, and connector configuration. Typical Price Ranges

Single-mode patch cords (OS1/OS2): Usually priced between \$1 to \$10 per meter for standard LC-LC or SC-SC connectors, with longer lengths or armored cables costing more.

Multimode patch cords (OM1-OM5): Prices generally range from \$0.30 to \$8 per meter, depending on fiber type, jacket type, and connector quality.

Armored or bend-insensitive cords: These specialized cords can cost \$5 to \$15 per piece, offering extra protection in industrial or high-density environments.

Bulk orders: Purchasing in large quantities often reduces the unit price significantly, especially for OEM or factory-direct orders.

Factors Affecting Price

Fiber Type: Single-mode fibers are typically more expensive than multimode fibers due to higher precision requirements.

Connector Type: LC, SC, ST, MPO/MTP, and other connectors vary in cost; MPO/MTP connectors for multi-core applications are more expensive due to alignment precision.

Cable Length and Jacket: Longer cables and LSZH or armored jackets increase the price.

Quality and Testing: Certified, tested cords that meet industry standards for optical loss and reflectance are priced higher.

Buying Tips in Gaoyao

Contact local suppliers or distributors for current stock and delivery options, as prices fluctuate with demand and shipping costs. Consider bulk purchases if multiple cords are needed, as this can reduce per-unit cost. Verify connector compatibility with your devices (LC, SC, ST, MPO) to avoid additional costs. For industrial or outdoor use, armored or bend-insensitive cords are recommended despite higher prices.

In summary, buyers in Gaoyao can expect fiber optic patch cords to start from around \$0.30 per meter for basic multimode types and go up to \$15 or more for specialized, armored, or long single-mode cords, with bulk orders offering cost savings.
