

Recommended cheap PoE switches

AI Overview

For budget-friendly PoE switches, top options include the TP-Link TL-SG1005P, NETGEAR GS308PP, TP-Link LS108GP, and NETGEAR GS108PP, offering reliable power delivery and gigabit connectivity for small networks.

Top Budget PoE Switches

TP-Link TL-SG1005P
 Ports: 5 Gigabit (4 PoE+)
 PoE Budget: 65W
 Features: Fanless, metal housing, plug-and-play, Extend Mode for long-distance PoE
 Best For: Small home or office networks powering cameras and access points
 Notes: Compact, easy to mount, stable power delivery even under full load, ideal for setups with up to four devices drawing 25W each.

NETGEAR GS308PP
 Ports: 8 Gigabit (all PoE+)
 PoE Budget: 123W
 Features: Unmanaged, quiet operation, suitable for IP cameras
 Best For: Camera-heavy setups needing reliable PoE without advanced management
 Notes: Provides sufficient headroom for multiple devices and night IR camera loads.

TP-Link LS108GP
 Ports: 8 Gigabit (PoE+)
 PoE Budget: 124W
 Features: Unmanaged, cost-effective, plug-and-play
 Best For: Strict budget scenarios where basic PoE functionality is needed
 Notes: Simple setup, reliable for small deployments with moderate power requirements.

NETGEAR GS108PP
 Ports: 8 Gigabit (PoE+)
 PoE Budget: 123W
 Features: Unmanaged, higher power headroom than GS308PP
 Best For: Users needing extra PoE capacity for future expansion
 Notes: Slightly more expensive but offers flexibility for additional devices.

Key Considerations for Cheap PoE Switches

PoE Standards: Ensure compatibility with 802.3af (15.4W) or 802.3at (30W) for your devices; most cameras and Wi-Fi access points are compatible with PoE+.

Port Count vs. Power Budget: Choose a switch based on total wattage needed rather than just the number of ports. For example, a 60W switch can handle two APs and a couple of cameras, while a 120W switch is safer for multiple devices.

Management Features: Unmanaged switches are cheapest and simplest, while smart or managed switches offer VLANs, QoS, and monitoring if needed for small business networks.
