

Special Specification Ceramic Fuse

Overview

General Material: Brass Ceramic. 3 x 32 mm fuses for primary protection. High rated voltages up to 500 VAC / DC. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 10% may be applied if shipping to the United States. Mouser offers inventory, pricing, & datasheets for Ceramic Cartridge Fuse Cartridge Fuses. 3x32mm - This product is available in Transfer Multisort. Fuses are fundamental circuit protection devices used in automotive and electronic systems to protect wiring and components from overcurrent, overload, and short circuit conditions. They consist of a ceramic body that houses a fusible element, which melts when excessive current flows through it, thereby interrupting the circuit and protecting the connected equipment. In addition to the standard types NH000, NH00, NH0, NH1, NH2, NH3, NH4, our product range also includes various special types (e.
