

Splitter Electrical Box

AI Overview

A splitter box is an electrical enclosure that divides incoming power from a main feeder into multiple branch circuits, allowing safe and organized distribution of electricity. What is a Splitter Box? A splitter box, also known as a tap box or junction box, is designed to split feeder circuit conductors into multiple branch circuits. It typically contains pre-installed terminal blocks or busbars, allowing large incoming cables to be connected and then distributed to smaller outgoing cables safely and efficiently. Splitter boxes are used in both residential and commercial settings, including industrial facilities, data centers, and buildings with standby generators.

Key Features
Wire Configurations: Available in 3-wire or 4-wire setups to accommodate different electrical systems.
Amperage Ratings: Can handle a wide range of currents, from 70A up to 600A or more, depending on the model.
Construction: Typically made from mild steel or stainless steel, with powder-coated finishes for durability and corrosion resistance.
Safety: Includes features like quarter-turn latches, grounding kits, and gaskets to prevent accidental contact and protect against dust and moisture.
Standards Compliance: Many splitter boxes meet CSA, NEMA, and IEC standards, ensuring safe operation in various environments.
Applications
Power Distribution: Splits power from a main service line to multiple branch circuits for lighting, machinery, or outlets.
Temporary or Portable Power: Used in construction sites or events to distribute power from generators.
Load Testing and Maintenance: Provides a convenient point to tap into large feeder cables for testing or maintenance without disrupting the main system.
Types of Splitter Boxes
Indoor Splitter Boxes: Designed for dry, controlled environments; often Type 1 or Type 12 enclosures.
Outdoor/Weatherproof Splitter Boxes: Rated Type 3R, 4, or 4X for protection against rain, dust, and corrosion.
High-Amperage Tap Boxes: Equipped with busbars and mechanical lugs for large feeder cables, suitable for industrial app...
