

Yellow electrical distribution box casing

Overview

The colour of the casing refers to the regional electric power distribution at either 110/120 Volt = yellow, 230/240 Volt = blue or 400 Volt = red. Protected by a thick sheet metal casing, these distribution cabinets are designed for temporary installations and, thanks to double insulation, meet safety. Electrical boxes contain and protect wiring junctions and facilitate installation of outlets, switches, and fixtures. Standard electrical boxes enclose. Global Recycled Standard (GRS) certified products contain recycled content that has been independently verified at each stage of the supply chain, from the source to the final product and meet social, environmental, and chemical requirements. Mouser is an authorized distributor for many enclosure, box, & case manufacturers including BUD, Hammond, New Age Enclosures, PacTec & more. Enclosures are structures used to enclose, contain, or. Wieland is your experienced and reliable partner for efficient, pluggable and decentralized electrical installation.
