

Zimbabwe Stainless Steel Mesh Cable Tray Specifications

AI Overview

Stainless steel mesh cable trays in Zimbabwe are available in customizable sizes, durable stainless steel grades, and fully certified to IEC 61537 standards. Material and Construction Stainless steel mesh cable trays are made from sturdy stainless steel wires woven or welded together, providing high resistance to impact, deformation, and wear over time. Common stainless steel grades used include SS202, SS304, and SS316, offering varying levels of corrosion resistance and durability suitable for industrial, commercial, and outdoor applications. Dimensions and Customization These cable trays are highly customizable to meet specific project requirements: Widths: 50mm to 600mm Heights: 50mm or 100mm Lengths: 1m to 2.5m Shapes and Colors: Available in various configurations to suit installation needs Custom bends and connectors can be fabricated on-site for flexible installation. Load Capacity and Durability The mesh design allows for strong support of heavy cable loads, with thick, well-spaced wires ensuring stability. Stainless steel construction ensures long-term durability and resistance to environmental factors, making it suitable for warehouses, factories, data centers, and infrastructure projects. Standards and Certification High-quality stainless steel mesh cable trays in Zimbabwe adhere to international IEC 61537 standards, ensuring safety, reliability, and compatibility with global industrial requirements. Suppliers provide full test certification for each tray, confirming compliance and quality assurance. Suppliers in Zimbabwe Jeetmull Jaichandlall (P) Ltd: Offers a wide range of stainless steel cable trays with excellent finishing, tailored to industry demands, and manufactured using modern equipment. Patil More Exports: Provides customizable trays for bulk industrial orders, with full certification and support for export projects. Accessories and Install...
